**1. Reporting Entity**

**General Information**

SMC Tollways Corporation (Tollways or the Parent Company) was incorporated and registered with the Philippine Securities and Exchange Commission (SEC) on June 7, 2013 to deal with real and personal property of every kind and description, including securities or obligations of any corporation or association engaged in any business, including but not limited to those engaged in the logistics, tollways, infrastructure and similar businesses.

The Parent Company has a corporate life of 50 years pursuant to its articles of incorporation. However, under the Revised Corporation Code of the Philippines which took effect on February 23, 2019, the Parent Company has a perpetual corporate life.

The Parent Company is a wholly-owned subsidiary of Atlantic Aurum Investments B.V. (AAIBV), a holding company incorporated in the Netherlands. The ultimate parent of the Parent Company is Top Frontier Investment Holdings, Inc., a holding company incorporated in the Philippines.

In 2013, the Parent Company acquired a total of 87.84% interest in SMC Skyway Corporation (SMC SKYWAY) from AAIBV and Terramino Holdings, Inc. (THI), for a total consideration of ₱20,722.6 million.

In 2016, the Parent Company acquired 100% interest in Stage 3 Connector Tollway Holdings Corporation (S3CTHC) from AAIBV for a total consideration of ₱16,300.0 million. As at June 30, 2025 and December 31, 2024, S3CTHC owns 90% of SMC Skyway Stage 3 Corporation (MMSS3).

In 2020, the Parent Company acquired a total of 53.37% interest in Toll Road Operation & Maintenance Venture Corporation (TROMV) from Padma Investment PTE. Ltd. for ₱0.1 million. The acquisition resulted to an indirect ownership of 57.88% interest in Skyway O&M Corporation (SOMCO).

**2. Material Accounting Policy Information**

The interim consolidated financial statements have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting* and do not include all the information required in the annual consolidated financial statements, and should be read in conjunction with the Group's audited consolidated financial statements as at December 31, 2024.

The interim consolidated financial statements were approved and authorized for issue in accordance with a resolution by the Board of Directors (BOD) on August 11, 2025.

The interim consolidated financial statements are presented in Philippine peso and all financial information are rounded off to the nearest thousands (₱000), except when otherwise indicated.

The principal accounting policies adopted in the preparation of the interim consolidated financial statements of the Group are consistent with those followed in the most recent annual audited consolidated financial statements, except for the changes in accounting policies as explained below.

The Philippine Financial and Sustainability Reporting Standards Council (FSRSC) approved the adoption of a number of new and amendments to standards as part of Philippine Financial Reporting Standards (PFRS) Accounting Standards.

#### *Adoption of Amendments to Standards*

The Group has adopted the Lack of Exchangeability (Amendments to PAS 21, *The Effects of Changes in Foreign Exchange Rates*) effective January 1, 2025. The amendments clarify that a currency is exchangeable into another currency when an entity is able to obtain the other currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism in which an exchange transaction would create enforceable rights and obligations.

When a currency is not exchangeable, an entity needs to estimate a spot rate. The objective in estimating the spot rate is to reflect the rate at which an orderly exchange transaction would take place at the measurement date between market participants under prevailing economic conditions. The amendments do not specify how to estimate the spot exchange rate to meet the objective and an entity can use an observable exchange rate without adjustment or another estimation technique.

The amendments require new disclosures to help users assess the impact of using an estimated exchange rate on the financial statements, including the nature and financial impacts of the currency not being exchangeable, the spot exchange rate used, the estimation process, and risks to the entity because the currency is not exchangeable.

The adoption of the amendments to standards did not have a material effect on the interim consolidated financial statements.

#### *New and Amendments to Standards Not Yet Adopted*

A number of new and amendments to standards are effective for annual reporting periods beginning after January 1, 2025 and have not been applied in preparing the interim consolidated financial statements. Unless otherwise indicated, none of these is expected to have a significant effect on the interim consolidated financial statements.

The Group will adopt the following new and amendments to standards on the respective effective dates:

- Classification and Measurement of Financial Instruments (Amendments to PFRS 9, *Financial Instruments*, and PFRS 7, *Financial Instruments: Disclosures*). The amendments clarify that financial assets and financial liabilities are recognized and derecognized on the settlement date, except for regular way purchases or sales of financial assets and financial liabilities that meet the conditions for an exception. The exception allows entities to elect to derecognize certain financial liabilities settled through an electronic payment system before the settlement date.

The amendments also provide guidelines for assessing the contractual cash flow characteristics of financial assets that include environmental, social, and governance-linked features and other similar contingent features.

Entities are required to disclose additional information about financial assets and financial liabilities with contingent features, and equity instruments classified at fair value through other comprehensive income.

The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early application permitted.

- Annual Improvements to PFRS Accounting Standards - Volume 11. This cycle of improvements contains amendments to two standards:
  - Gain or Loss on Derecognition (Amendments to PFRS 7). The amendments replaced the reference to 'inputs that were not based on observable market data' in the obsolete paragraph 27A of PFRS 7, with reference to 'unobservable inputs' in paragraphs 72-73 of PFRS 13, *Fair Value Measurement*.
  - Derecognition of Lease Liabilities and Transaction Price (Amendments to PFRS 9). The amendments:
    - added a cross-reference to clarify that when a lessee has determined that a lease liability has been extinguished in accordance with PFRS 9, the lessee applies the requirement that the difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, shall be recognized in profit or loss; and
    - replaced the term 'their transaction price (as defined in PFRS 15, *Revenue from Contracts with Customers*)' with 'the amount determined by applying PFRS 15' because a receivable might be initially measured at an amount that differs from the transaction price recognized as revenue, for example, when you recognize full amount for consideration that's unconditionally receivable but at the same time recognize expected refund liability with respect to retrospective rebates. Consequently, the definition of the transaction price has been deleted.

The amendments apply for annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted. The amendment on derecognition of lease liabilities applies only to lease liabilities extinguished on or after the beginning of the annual reporting period in which the amendment is first applied.

- PFRS 18, *Presentation and Disclosure in Financial Statements*, replaces PAS 1, *Presentation of Financial Statements*. The new standard introduces the following key requirements:
  - Entities are required to classify all income and expenses into five categories in the statement of income: operating, investing, financing, income tax, and discontinued operations. Subtotals and totals are presented in the statement of income for operating profit or loss, profit or loss before financing and income taxes, and profit or loss;
  - Management-defined performance measures are disclosed in a single note to the financial statements; and
  - Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit or loss subtotal as the starting point for the statement of cash flows when presenting cash flows from operating activities under the indirect method.

PFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, with retrospective application required. Early adoption is permitted.

The Group continues to assess the impact of the above new and amendments to standards effective subsequent to 2025 on the interim consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the interim consolidated financial statements when these amendments are adopted.

### 3. Segment Information

The primary segment reporting format is determined to be business segments as the Group's risks and rates of return are affected predominantly by differences in the services produced. The operating businesses are organized and managed separately according to the nature of the services provided, with each segment representing a strategic business unit.

#### **Business Segments**

The Group's main businesses are as follows:

- The toll concession segments have granted the primary and exclusive privilege, responsibility and obligation to design and construct the toll roads.
- The toll operation segment has granted the primary and exclusive privilege, responsibility and obligation to operate and maintain the toll roads.
- Others include holding entities.

#### **Geographical Segments**

The Group operates and generates revenue principally in the Philippines. Consequently, geographical business information is not applicable.

#### **Inter-segment Transactions**

Segment revenue, segment expenses and operating results include transfers among business segments and among geographical segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

Management monitors operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements.

On a consolidated basis, the Group's performance is evaluated based on core net income for the period. Core net income for the period is measured as consolidated net income.

The following tables present revenue and expense information and certain assets and liabilities information regarding the different business segments as at and for the periods ended June 30, 2025 and 2024:

Service concession rights	<b>₱1,742,383</b>	₱1,708,691
Property and equipment	<b>30,777</b>	24,884
ROU assets	<b>1,351</b>	1,676
	<b>₱1,774,511</b>	₱1,735,251

Depreciation and amortization is allocated as follows:

	<b>June 30, 2025</b>	June 30, 2024
Cost of services	<b>₱1,768,517</b>	₱1,728,390
Operating expenses	<b>5,994</b>	6,861
	<b>₱1,774,511</b>	₱1,735,251

## 7. Basic and Diluted Earnings per Share

The computation of basic and diluted earnings per share is as follows (amounts in thousands except per share data):

	<b>June 30, 2025</b>	June 30, 2024
Net income attributable to the holders of the Parent Company	<b>₱4,266,991</b>	₱4,158,023
Divide by weighted average shares outstanding common shares	<b>69,538</b>	69,538
Basic and diluted earnings per share	<b>₱61.36</b>	₱59.79

The Parent Company has no potentially dilutive common shares for the period ended June 30, 2025, and 2024. Accordingly, the basic and diluted earnings per shares are stated at the same amount.

## 8. Financial Risk and Capital Management Objectives and Policies

### **Objectives and Policies**

The Group has significant exposure to the following financial risks primarily from its use of financial instruments:

- Interest Rate Risk
- Credit Risk
- Liquidity Risk

This note presents information about the exposure to each of the foregoing risks, the objectives, policies and processes for measuring and managing these risks, and for management of capital.

The principal non-trade related financial instruments of the Group include cash and cash equivalents, restricted cash, security deposits (included under "Other current assets" account), due from related parties, miscellaneous deposits (included under "Other noncurrent assets" account), retention payable, long-term debt, dividends payable, due to a related party, and lease liabilities. These financial instruments, are used mainly for working capital management purposes. The trade-related financial assets and financial liabilities of the Group such as trade and other receivables, and accounts payables and other current liabilities (excluding statutory payables) arise directly from and are used to facilitate its daily operations.

The BOD has the overall responsibility for the establishment and oversight of the risk management framework of the Group.

The risk management policies of the Group are established to identify and analyze the risk faced by the Group, to set appropriate risk limits and controls, and to monitor risk and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The BOD constituted the Audit and Risk Oversight Committee to assist the BOD in fulfilling its oversight responsibility of the Group's corporate governance process relating to the: (a) quality and integrity of the consolidated financial statements and financial reporting process and the systems of internal accounting and financial controls; (b) performance of the internal auditors; (c) annual independent audit of the consolidated financial statements, the engagement of the independent auditors and the evaluation of the independent auditors' qualifications, independence and performance; (d) compliance with tax, legal and regulatory requirements, including the disclosure control and procedures; (e) evaluation of management's process to assess and manage the enterprise risk issues; and (f) fulfillment of the other responsibilities set out by the BOD.

The Audit and Risk Oversight Committee shall prepare such reports as may be necessary to document the activities of the committee in the performance of its functions and duties. Such reports shall be included in the annual report of the Group and other corporate disclosures as may be required by the Securities and Exchange Commission (SEC).

The Audit and Risk Oversight Committee also oversees how management monitors compliance with the risk management policies and procedures of the Group and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. Internal Audit assists the Audit and Risk Oversight Committee in monitoring and evaluating the effectiveness of the risk management and governance processes of the Group. Internal Audit undertakes both regular and special reviews of risk management control and procedures, the results of which are reported to the Audit and Risk Oversight Committee.

### **Interest Rate Risk**

Interest rate risk is the risk that future cash flows from a financial instrument (cash flow interest rate risk) or its fair value (fair value interest rate risk) will fluctuate because of changes in market interest rates.

The long-term debt of the Group is exposed to cash flow interest rate risk since it is subject to floating interest rate. The Group regularly monitors interest rate movements and, on the basis of current and projected economic and monetary data, decides on the best alternative to take to protect it from spiraling interest costs should interest rates go up.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on long-term debt, with all other variables held constant, of the income before income tax of the Group:

	<b>June 30, 2025</b>		December 31, 2024	
	<b>Change in Basis Points</b>	<b>Effect on Income Before Income Tax</b>	Change in Basis Points	Effect on Income Before Income Tax
Increase	<b>+0.01</b>	<b>(P27,088)</b>	+0.08	(P211,130)
Decrease	<b>-0.01</b>	<b>P27,088</b>	-0.08	211,130

*\*interest rate should not be lower than floor of 6.00%*

The assumed movement in basis points for the interest rate sensitivity analysis is based on the best estimate of expected change considering future trends of the Group, showing significantly lower volatility than in previous years.

There is no impact on the equity of the Group other than those already affecting the consolidated statements of comprehensive income.

### **Credit Risk**

Credit risk is the risk of financial loss to the Group when a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from trade and other receivables.

The Group manages its credit risk mainly through the application of transaction limits and close risk monitoring. It is the Group's policy to enter into transactions with a wide diversity of creditworthy counterparties to mitigate any significant concentration of credit risk.

The credit quality of financial assets is being managed by the Group using internal credit ratings.

The table below shows the credit quality by class of financial asset based on the rating system of the Group:

The Group evaluates credit quality on the basis of the credit strength of the security and/or counterparty/issuer. High grade financial assets are those which collectability is assured based on past experience. Standard grade financial assets are considered moderately realizable and some accounts which would require some reminder follow-ups to obtain settlement from the counterparty. The Group determines if credit risk have increased significantly when financial assets are more than 30 days past due.

**Impairment.** An impairment analysis is performed at each reporting date using a provision matrix (or lifetime expected loss allowance, if simplified approach) to measure ECL. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

For toll receivables, the Group has adopted a lifetime expected loss allowance in estimating ECL to receivables through the use of a provisions matrix using fixed rates of credit loss provisioning based on recent historical collection rates after incorporating forward-looking information. The Group's policy in estimating ECL on other receivables are based on a 12-month basis. Allowance for ECL amounted to P733.6 million as at June 30, 2025 and December 31, 2024. Management assessed that the allowance is sufficient to cover the ECL of trade and other receivables.

Generally, trade and other receivables are written off if collection cannot be made despite exhausting all extrajudicial and legal means of collection. The maximum exposure to credit risk at reporting date is the carrying value of the financial assets. The Group does not hold collateral as security.

For financial assets at amortized cost which mainly comprise of cash and cash equivalents and restricted cash, it is the Group's policy to measure ECL on these instruments on a 12-month basis.

However, where there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

When determining if there has been a significant increase in credit risk, the Group considers reasonable and supportable information that is available without undue cost or effort and that is relevant for the particular financial instrument being assessed such as, but not limited to, the following factors:

- Actual or expected external and internal credit rating downgrade;
- Existing or forecasted adverse changes in business, financial or economic conditions; and
- Actual or expected significant adverse changes in the operating results of the borrower.

The following are considered in the assessment:

- ECL for cash and cash equivalents (excluding cash on hand) are not significant primarily because the placements are with reputable counterparty banks that possess good credit ratings.
- For deposits, the Group considered the financial capacity of the counterparty to refund the deposit once the agreement has been terminated.

### **Liquidity Risk**

Liquidity risk pertains to the risk that the Group will encounter difficulty to meet payment obligations when they fall due under normal and stress circumstances.

The Group's objectives to manage its liquidity risk are as follows: (a) to ensure that adequate funding is available at all times; (b) to meet commitments as they arise without incurring unnecessary costs; (c) to be able to access funding when needed at the least possible cost; and (d) to maintain an adequate time spread of refinancing maturities.

The Group constantly monitors and manages its liquidity position, liquidity gaps and surplus on a daily basis. A committed stand-by credit facility from several local banks is also available to ensure availability of funds when necessary.

The table below summarize the maturity profile of the Group's financial assets and liabilities based on contractual undiscounted receipts and payments used for liquidity management:

### **Capital Management**

The Group maintains a sound capital base to ensure its ability to continue as a going concern, thereby continue to provide returns to stockholders and benefits to other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

The Group manages its capital structure and makes adjustments, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay-off existing debts, return capital to shareholders, issue new shares or do conversion of related party advances to an equity component item.

The Group monitors capital on the basis of debt-to-equity ratio, which is calculated as total debt divided by total equity. Total debt is defined as total current liabilities and total noncurrent liabilities, while equity is total equity as shown in the consolidated statements of financial position.

The BOD has overall responsibility for monitoring capital in proportion to risk. Profiles for capital ratios are set in the light of changes in the external environment and the risks underlying the Group's business, operation and industry.

The Group is not subject to externally imposed capital requirements except for the required compliance of debt-to-equity ratio of not more than 3.0x with the loan covenants.

## **9. Financial Assets and Financial Liabilities**

*Recognition and Initial Measurement.* A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

The Group recognizes a financial asset or a financial liability in the consolidated statements of financial position when it becomes a party to the contractual provisions of the instrument.

A financial asset (unless a trade receivable without a significant financing component) or financial liability is initially measured at a fair value of the consideration given or received. The initial measurement of financial instruments, except for those designated as at FVPL, includes transaction costs. A trade receivable without a significant financing component is initially measured at transaction price.

### **Financial Assets**

The Group classifies its financial assets, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (FVOCI) and FVPL. The classification depends on the contractual cash flow characteristics of the financial assets and the business model of the Group for managing the financial assets.

For purposes of subsequent measurement, financial assets are classified in the following categories: financial assets at amortized cost, financial assets at FVOCI (with or without recycling of cumulative gains and losses) and financial assets at FVPL.

As at June 30, 2025, and December 31, 2024, the Group does not have financial assets measured at FVPL and FVOCI.

*Financial Assets at Amortized Cost.* A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVPL:

- it is held within a business model with the objecting of holding the financial assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognized in the profit or loss when the financial asset is derecognized, modified or impaired.

As at June 30, 2025, and December 31, 2024, cash and cash equivalents, restricted cash, trade and other receivables, security deposits (included under “Other current assets” account), due from related parties, and miscellaneous deposits (included under “Other noncurrent assets” account) of the Group are classified under this category.

#### Financial Liabilities

The Group determines the classification of its financial liabilities, at initial recognition, in the following categories: financial liabilities at FVPL and other financial liabilities. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

As at June 30, 2025, and December 31, 2024, the Group does not have financial liabilities measured at FVPL.

*Financial Liabilities at Amortized Cost.* This category pertains to financial liabilities that are not designated or classified as at FVPL. After initial measurement, other financial liabilities are carried at amortized cost using the effective interest method. Amortized cost is calculated by taking into account any premium or discount and any directly attributable transaction costs that are considered an integral part of the effective interest rate of the liability. The effective interest rate amortization is included in “Interest expense and other financing charges” account in the consolidated statements of comprehensive income. Gains and losses are recognized in the consolidated statements of comprehensive income when the liabilities are derecognized or impaired or through the amortization process.

Debt issue costs are considered as an adjustment to the effective yield of the related debt and are deferred and amortized using the effective interest method. When a loan is paid, the related unamortized debt issue costs at the date of repayment are recognized the consolidated statements of comprehensive income.

As at June 30, 2025, and December 31, 2024, accounts payable and other current liabilities (excluding statutory payables), retention payable, long-term debt, dividends payable, due to a related party, and lease liabilities of the Group are classified under this category.

#### **Impairment of Financial Assets**

The Group recognizes an allowance for expected credit losses (ECL) on financial assets at amortized costs.

ECL are probability-weighted estimates of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive), discounted at the effective interest rate of the financial asset, and reflects reasonable and supportable information that is available without undue cost or effort about past events, current conditions and forecasts of future economic conditions.

The Group recognized allowance for impairment based on either 12-month or lifetime ECL depending on whether there has been a significant increase in credit risk since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group recognizes lifetime ECL for receivables that do not contain significant financing component. The Group uses provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the borrowers and the economic environment.

At each reporting date, the Group assesses whether the financial assets at amortized cost are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired include observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the restructuring of a financial asset by the Group on terms that the Group would not consider otherwise
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

The Group considers a financial asset to be in default when a counterparty fails to pay its contractual obligations, or there is a breach of other contractual terms, such as covenants.

The Group directly reduces the gross carrying amount of a financial asset when there is no reasonable expectation of recovering the contractual cash flows on a financial asset, either partially or in full. This is generally the case when the Group determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

The ECL on financial assets at amortized cost are recognized as allowance for impairment losses against the gross carrying amount of the financial asset, with the resulting impairment losses (or reversals) recognized in the consolidated statements of comprehensive income.

#### **Classification of Financial Instrument between Liability and Equity**

Financial instruments are classified as liability or equity in accordance with the substance of the contractual arrangement. Interest, dividends, gains and losses relating to a financial instrument or a component that is a financial liability, are reported as expense or income. Distributions to holders of financial instruments classified as equity are charged directly to equity, net of any related income tax benefits.

A financial instrument is classified as liability if it provides for a contractual obligation to:

- deliver cash or another financial asset to another entity;
- exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

The table below presents a comparison by category of the carrying amounts and fair values of the Group's financial instruments:

### Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

### Derecognition of Financial Assets and Financial Liabilities

*Financial Assets.* A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the right to receive cash flows from the assets have expired; or
- the Group has transferred its right to receive cash flows from the asset or has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" agreement; and either: (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

*Financial Liabilities.* A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statements of comprehensive income.

### **Fair Value Measurements**

The Group measures financial and non-financial assets and liabilities at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either: (a) in the principal market for the asset or liability; or (b) in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or most advantageous market must be accessible to the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 - inputs for the asset or liability that are not based on observable market data.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing the categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

### **Fair Value Hierarchy**

Financial assets and financial liabilities measured at fair value in the consolidated statements of financial position are categorized in accordance with the fair value hierarchy. This hierarchy groups financial assets and financial liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and financial liabilities.

The methods and assumptions used by the Group in estimating the fair values of the foregoing financial instruments are as follows:

*Cash and Cash Equivalents, Restricted Cash, Trade and Other Receivables, Due from Related Parties, Accounts Payable and Other Current Liabilities (excluding statutory payables), Retention Payable, Dividends Payable and Due to a Related Party.* The carrying amounts approximate the fair values at reporting dates due to the short-term maturities of these financial instruments. The fair value measurement for the current financial assets and liabilities are categorized as Level 3 (significant unobservable input).

*Security Deposits and Miscellaneous Deposits.* Due to the insignificant effect of discounting the sum of future cash flows, the amount of cash given up approximates the fair value of security deposits as at reporting date. The fair value measurement for the security deposits has been categorized as Level 2 (significant observable inputs).

*Lease Liabilities.* The estimated fair value of the Group's lease liabilities were determined as the sum of all remaining rental payments discounted using the prevailing market rate of interest for similar types of obligations. The fair value measurement for lease liabilities have been categorized as Level 2 (significant observable input).

*Long-term Debt.* The fair value of the long-term debt of the Group was computed using the prevailing market rate of similar instrument (Level 2).

There are no significant transfers between levels in the fair value hierarchy. The Group does not have financial instruments carried at fair value as at June 30, 2025 and December 31, 2024.

For the 2<sup>nd</sup> quarter of 2025, traffic volume increased across all vehicular classes. SMC Skyway Corporation ("SMC SKYWAY") achieved an Average Daily Traffic (ADT) of 286,011, higher by 3% from 276,483 in 2024, while SMC Skyway Stage 3 Corporation ("MMSS3") achieved an ADT of 176,534, higher by 9% from 162,635 in 2024.

Total revenue amounted to ₱11,062.4 million, a 5% increase from ₱10,533.3 million in June 2024.

Consolidated cost of services posted an increase of ₱72.8 million or 2% mainly due to the following items: (a) additional amortization of Skyway Extension and MMSS3, and recognition of depreciation expense on machinery and equipment acquired during the period, (b) increase in government fees which is directly proportional to the increase in toll revenue, (c) increase in repairs and maintenance due to higher hardware and software maintenance; offset by (d) decrease in operations and maintenance fee due to timing of charges, and (e) decrease in other expenses such as communications, light and water, fuel and oil, and supplies.

Consolidated operating expenses recorded an increase of ₱144.5 million or 26%, mainly due to (a) increase in management fee due to additional allocation, (b) increase in taxes and licenses due to higher revenue tax base for business permits and (c) increase in other expenses due to higher insurance, membership and dues, and advertising costs. Those were offset by the (a) decrease in repairs and maintenance due to lower transportation maintenance costs and (b) decrease in personnel costs due to lower manpower from last year.

For other income and charges, the Group recorded lower interest expense and other financing charges by ₱29.3 million due to lower outstanding balance of the long-term debt. Interest income increased by ₱116.4 million due to higher funds available for placements. Rental income also posted an increase of ₱8.7 million due to higher advertising space rentals.

Income tax expense was higher by ₱321.1 million as result of higher taxable income from operations, income tax holiday expiration of MMSS3, and increased final taxes from interest income.

For the 2<sup>nd</sup> quarter of 2024, traffic volume increased across all vehicular classes. SMC Skyway achieved an ADT of 276,483, higher by 2% from 270,376 in 2023, while MMSS3 achieved an ADT of 162,635, higher by 8% from 150,410 in 2023.

Total revenue amounted to ₱10,533.3 million, an increase of 7% from ₱9,846.1 million in 2023.

Consolidated cost of services posted an increase of ₱132.3 million or 5% mainly due to the following items: (a) additional amortization of Skyway Extension and recognition of depreciation expense on machinery and equipment acquired during the period, (b) increase in government fees which is directly proportional to the increase in toll revenue, (c) higher personnel costs due to salary adjustments and related benefits, and (d) increase in contracted services due to higher manpower services and RFID subscriber management fee.

Consolidated operating expenses posted an increase of ₱63.8 million or 13%, mainly due to (a) increase in business tax expense, (c) increase in merchant fees due to higher ETC replenishments via credit card; offset by the (d) decrease in depreciation and amortization due to fully depreciated assets this period and (e) lower seminars and training, and travel and transportation costs.

For other income and charges, the Group recorded lower interest expense and other financing charges by ₱290.1 million due to lower outstanding balance of the long-term debt. Interest income increased by ₱103.0 million due to higher short-term placements. Rental income posted an increase of ₱5.4 million, and income from insurance claims amounted to ₱11.8 million.

Income tax expense was higher by ₱48.5 million as result of higher taxable income from operations and increased final taxes from interest income.

Cash and cash equivalents amounted to ₱21,291.5 million, 23% higher than ₱17,279.6 million in 2024 due to higher cash generated from operations as a result of higher traffic in Skyway and MMSS3.

Restricted cash amounted to ₱7,179.3 million, 27% lower from ₱9,884.4 million in 2024 due to lower cash balance required by loan covenants.

Trade and other receivables increased from ₱239.1 million to ₱266.9 million mainly due to higher toll receivables from credit card transactions.

Input VAT posted a decrease of ₱306.6 million or 10% due to higher output VAT from toll revenue claimed against input VAT.

Other current assets decreased from ₱332.8 million to ₱323.6 million due to lower prepaid taxes and prepaid insurance.

Service concession rights posted a net decrease of ₱415.0 million or 1% due to amortization of service concession rights.

Due from related parties amounted to ₱457.0 million which pertains to loans provided to various related parties.

Non-current portion of advances to contractors posted a decrease of ₱19.0 million or 5% due to recoupment in progress billings.

Property and equipment posted a net increase of ₱51.7 million or 25% due to acquisition of various fixed assets to be used in operation.

Other noncurrent assets increased by ₱4.4 million or 12% due to the additional miscellaneous prepaid assets.

Accounts payable and other current liabilities decreased by ₱1,246.4 million or 21% is due to payments to third parties and release of retention payable.

Dividends payable decreased by ₱16.0 million due to dividends payments in June 2025.

Income tax payable increased by ₱251.5 million or 71% due to higher taxable income compared to last year.

Current and non-current portion of long term-debt - net of debt issue cost, posted a net decrease of ₱2,734.2 million due to principal payments.

Higher retention payable is due to on-going construction in MMSS3.

Total equity as of June 30, 2025 amounted to ₱56,126.9 million, higher by 9% from December 31, 2024 balance of ₱51,348.9 million, mainly due to the net income generated for the period.

Total assets as of June 30, 2024 amounted to ₱104,769.9 million from ₱104,932.1 million in December 31, 2023.

Cash and cash equivalents amounted to ₱11,203.6 million, 2% higher than ₱10,964.1 million in 2023 due to higher cash generated from operations as a result of higher traffic in Skyway and MMSS3.

Restricted cash amounted to ₱9,162.8 million, 8% higher than ₱8,463.3 million in 2023 due to higher cash balance required by loan covenants and higher toll revenue.

Trade and other receivables increased from ₱183.9 million to ₱186.9 million, mainly due to higher credit card transactions.

Input VAT posted a decrease of ₱437.7 million or 12% due to higher output VAT from toll revenue claimed against input VAT.

Other current assets increased to ₱377.5 million from ₱341.2 million due to higher prepaid taxes on business permits payments.

Service concession rights posted a net decrease of ₱771.3 million or 1% due to amortization of service concession rights.

Non-current portion of advances to contractors posted an increase of ₱49.8 million or 27% due to additional down payments for contractors of MMSS3.

Property and equipment posted a net increase of ₱7.5 million or 5% due to the additional acquisition of fixed assets to be used in operation.

Other noncurrent assets increased by ₱12.5 million or 50% due to the additional miscellaneous prepaid assets.

Accounts payable and other current liabilities increased by ₱28.4 million or 1% due to higher current portion of retention payable, and increase in refundable toll replenishments due to higher prepaid RFID load.

Dividends payable decreased by ₱147.6 million due to the dividend payments to external parties.

Income tax payable increased by ₱60.7 million or 22% due to higher taxable income from last year.

Current and non-current portion of long-term debt - net of debt issue cost, posted a net decrease of ₱4,706.2 million due to principal payments.

Total equity as of June 30, 2024 amounted to ₱47,536.5 million, higher by 11% from December 31, 2023 balance of ₱42,934.8 million, mainly due to the higher net income generated for the period.
